

The 'WAGON SHED' has been a multi-year fundraiser to protect one of the original ox-team cargo wagons on the Gold Rush Trail. Following several setbacks, a temporary structure has been built to cover the wagon. Above Wayne Marchant, Robin Fennell and Vincent Latimer are nearing the completion of the roofing. Thanks to Murray Kane for the great deal on the 6x6 posts to help support the roof. Much appreciation also to the donors and volunteers who have worked over the years to make this happen.
